

# LIBRE DE MOSQUITOS

PREVENIR. PROTEGER. TOMAR CONTROL.

## Protejase para los moquitos

Proteja su hogar - Use las pantallas de las ventanas y el aire acondicionado. Vacie el agua acumulada.

Durante el día es peligroso - Los mosquitos que transmiten el virus de Zika pican en el día y noche.

Use ropa de protección - Use camisas de mangas largas y pantalones largos.

Use repelente de insectos - Busque los siguientes ingredientes: DEET - Picaridin - IR3535

CITY OF SAN JUAN

# Keep Mosquitoes Away

**BE MOSQUITO FREE**  
PREVENT. PROTECT. TAKE CONTROL.

Apply repellents when heading outside. Mosquitoes may bite at any time — day or night.

Wear repellents approved by the Environmental Protection Agency (EPA). They have been approved after being tested for negative effects.

Active ingredients for repellents may include DEET, picaridin, IR3535 or oil of lemon-eucalyptus.

Read the label before applying any repellent.

Do not apply repellents to eyes, nose, mouth, irritated skin, wounds or cuts.

Permethrin may be applied to clothing, bed nets or other supplies. Do not apply it directly on skin.

Be wary of household products that “work” as repellents. Many do not protect you.
